

The RAVO R2 and E2, Perfect as Bicycle Lane Sweepers

July 1, 2024 – Alkmaar, Netherlands – RAVO, a global manufacturer of street sweepers, is proud to announce the launch of its latest models, the RAVO R2 and the **fully electric** RAVO E2, specifically designed for sweeping bicycle lanes. As cities continue to expand their bicycle infrastructure, RAVO's new sweepers address the growing need for specialized equipment to maintain these lanes efficiently and sustainably. These compact sweepers are industry standouts, offering exceptional performance and unrivalled innovation.

Innovative Features for Superior Sweeping:

The RAVO R2 and **fully electric** E2 are engineered to provide top-notch cleaning performance with a focus on sustainability and operational efficiency. Both models boast robust suction capabilities and a compact design, making them ideal for bicycle lanes. Their unique patented broom systems can sweep bicycle lanes with a width anywhere between 5 and 8 feet. Both models feature user-friendly controls and advanced technology to ensure thorough cleaning. The E2 model is equipped with a swappable battery system, allowing for longer operational hours without downtime. This high-performance, environmentally friendly urban cleaning solution is now accessible to customers in North America, delivering unmatched efficiency and sustainability in a fully-electric package.

Commitment to Sustainability:

RAVO's commitment to environmental responsibility is exemplified in the E2 model's great working autonomy and intelligent energy management system, which optimizes power usage and extends battery life. These features make the RAVO E2 not only an effective cleaning machine but also a key player in the push for greener urban environments.

Discover the new RAVO E2 at PWX:

The new RAVO E2 is the recent recipient of two RedDot Design Awards (product design & product innovation). You can see the E2 model for yourself at the PWX (Public Works Expo) 2024 which will be held in Atlanta from September 8-10. This premier event brings together public works professionals from around the world to showcase the latest innovations, equipment, and services. Visit RAVO at booth number 937 to discover the E2 model for yourself.

About RAVO:

RAVO is a leading manufacturer of street sweepers and urban cleaning solutions, is part of the Fayat Cleantech business unit in the Road Equipment Division at the Fayat Group. With a rich history of innovation and a strong commitment to sustainability, RAVO continues to set the standard in the industry with products that combine cutting-edge technology and user-centric design. RAVO manufactures a wide range of quality road sweeping solutions, including the R1 sub-compact sweeper, the R2 and the electric E2 compact sweepers and the R5 and the electric R5e maxi-compact sweepers.
